

Week Beginning 07/03/16

Highlights of the week in Year 4/5

- What a busy week continuing with 'How to train your dragon,' activities in **literacy** and lots of practise of the four calculations this week in **maths**.
- Well done to those children who performed at St Andrews music festival on Tuesday, it was a great day out and the children represented the school beautifully.

- It was great seeing you all at parent consultations this week.

Talk about:

In class we've been trying to read in parts, each taking a character or narration role to read. Try with those at home reading your book together, each choosing a character to read. The children have had to use scanning skills to read ahead in order to prepare for their characters. Enjoy!

Homework: Calculation challenge booklet.
