

An awesome start to Y6!

It has been a great start to year 6! The children have settled in beautifully and have been trying their very best at their learning. We hope you all have a wonderful half term!

Our highlights from last half term!

Miss Williamson: *"My highlight from last half term was seeing how well the children responded to feedback about their learning. It was lovely to see that the children were still resilient after months off school!"*

Miss Gascoigne: *"My highlight was seeing all the children settle really well into year 6. It was amazing to see how much you've all grown up since I last worked with you in Y4!"*

Our learning so far...

Last half term we looked at the human body and focused in particular on the circulatory system. We learned all of the important parts of the heart and we carried out an investigation into pulse rates!

In history we looked at the Early Islamic Civilisation. We were really intrigued by their advances in science and reading. Did you know they invented the number zero?

Our learning this half term

Here is a little summary of the topics we will be covering this half term!

Literacy - We will be writing an explanation text and a defeating the monster story.

Maths - We are excited to start our work on fractions!

Science - We will be exploring light

Geography - We are continuing our work on countries around the world
